

# Water World

There are more than 24,000 different species of fish living in the waters of the world! Can you find all the fish swimming in the grid? One has been highlighted for you. When you are done, read the unused letters from left to right and top to bottom to discover just how much of the earth is a water covered habitat.

## EXTRA FUN:

Try using a light blue marker or crayon to run a single line of color through each name. It will make the final answer much more interesting!

- ABA
- ANGLER
- BARRACUDA
- BASS
- BLenny
- CARP
- CATFISH
- COD
- COELACANTHS
- EEL
- GOBIE
- GROUper

Unused letters read:

More than two thirds of the  
 surface of the earth is covered  
 with water. That's how much  
 of this puzzle is covered with  
 the names of fish!
