# The Story of Cupid

This is one story people think about on Valentine's Day:

1. Cupid is the god of love. He is a small baby with magic arrows.

2. Cupid likes to make people fall in love. But he is only a baby, so he is not very smart.

3. Cupid shoots his magic arrows into someone's heart.

4. Then that person falls in love with the next person he or she sees.

5. Cupid does not always shoot a magic arrow into the other person's heart. Then the other person does not love the first person.

6. Cupid makes a lot of trouble this way.
