Do more of your friends have  or  or  ?

Write a sentence to tell what your bar graphs shows.

Using the Page Have children ask five friends if they have bikes, skateboards, or skates, record the data, and then use the data to complete a bar graph to solve a problem. Ask children how they can **solve** the problem. (By looking at the graph to see which row has more shaded blocks.) **Notes for Home** Your child gathered information and completed a bar graph. *Home Activity:* Ask your child to explain how he or she completed and used the graph.
