

Explore Solids

Cross out the solid that does not belong in each group.

What's the rule for each group? Draw a line to match.

Group A.

stacks

Group B.

rolls

Group C.

rolls and stacks

Group D.

slides

Which solid belongs to the most groups? Why?

Notes for Home Your child identified how each group of solids are alike and crossed out the solid that does not belong in each. *Home Activity:* Ask your child to explain his or her reasoning.
