

Name _____

Critical Thinking

One class went to the lake.
They found these animals.

They made this graph.

How many snails did they find? _____

Which animal did they find most often? _____

Which animal did they find least often? _____

List the animals from most to least.

Notes for Home Your child read a bar graph and compared quantities it described. *Home Activity:* Ask your child to explain how the graph would change if the class saw 6 turtles, or no frogs.
