

The Whale Concentration Game

Test your memory and learn to recognize different kinds of whales in this fun game! Just print out this page twice and cut along the dotted lines. Spread out the cards face-down, mix them up, and test your memory by turning one card over at a time and then try to find its match. You may not have more than two cards showing at one time. When you make a match, take those two cards out and continue playing until all the whales are matched up!
