

Mixed-Up Monsters

Here's a great game that you can play with one or two friends. Three players works best.

You will need: white drawing paper, scissors, and pencils.

1.

Cut the paper in half the long way.

Each player gets one strip of paper. Fold the paper strip in thirds.

2.

Each player draws a head. Don't let anyone see your drawing!

Make pencil marks in the next box to show where the neck goes.

3.

Fold head under. Switch papers. Each player draws a body. Remember, don't let anyone see your drawing!

Make marks in the last box to show where the legs go.

4.

Fold body under. Switch papers. Each player draws legs and feet.

5.

When everyone is finished, unfold the papers to see your mixed-up monsters! Can you come up with funny names for them?
