Absurd Amphisbaena

This strange little monster is supposed to have two snake-like heads, one at each end, but a body like a goose. To add to the mix even more, the amphisbaena has two little ears like a squirrel.

When frightened, one head grabs the other head and the whole monster turns into a sort of hoop and rolls away!

Help the amphisbaena in the center of this maze to roll away from the elves who are trying to catch her.

**That's
A-Maze-Ing!**

The female amphisbaena may look strange, but she is a very good mother. While one head sleeps, the other one watches the eggs in her nest!

Family Reunion

Find the word "HUGS" 11 times in this happy family reunion. See if you can also find the snake, snowman, kite, teapot, snail, umbrella, lightning bolt, and head of a bunny.

Look Alikes

See if you can find shapes and patterns that are the same in both pictures.

HINT: The shape might be the same, but the way it is used might be completely different! For example, the cloud in the top picture is the same shape as the icing on the cupcake in the bottom picture!

What do you get when you cross a skunk, an owl, and a mountain?

To find the answer to this riddle, think of a word that best fits each of the descriptions below. Write the words on the numbered lines, and then transfer each letter into the numbered grid. The black boxes are the spaces between words.

A. Says "B00"

Stink Pinks

The answers to Stink Pinks are two rhyming words that each have one syllable. Use the clues to figure these out!

An intelligent toot

Seven days of smelliness

A fish fart

A hard, quick sniff

Smell from a moldy camping shelter

An apple passing gas

Smelly odor from a liquid you might swallow

Disgusting Dump

It doesn't take much to make a whole can-full of trash smell pretty putrid. Can you find a used diaper, a slimy banana peel, a rotten egg, a half-eaten chicken leg, a bunch of stinky fish bones, moldy wheel of cheese, moldy slice of bread, a dirty sock, and an old onion? For extra "fun," how many cartons

Bob's Bad Body Noises

One day Brenda counted her brother Bob making eight different disgusting noises! Can you find how many times Bob made each one? Use a light-colored marker to run a single line of color through each word you find. Make a mark in the box next to a word each time you find it.

EXTRA FUN: Use a dark marker to color all the letters X. What do you see when you're done?

Moving Around

See if you can use logic to solve the puzzle about four fast friends: Gary, Harry, Larry, and Mary who lived in Los Angeles. One day, the four friends got news that they would be moving to four different cities: Atlanta, Boston, Chicago, and Dallas. By listening to their parents talk, the friends learned the following:

- * Gary's family was moving to either Boston or Dallas.
- * Harry's family was not moving to either Boston or Chicago.
- * Either Harry or Mary was moving to Atlanta.
- * If Harry moves to Atlanta, then Gary moves to Chicago.
- * If Larry moves to Chicago, then Gary does not move to Dallas.

Who is moving where? Use the table to figure out the answer.

Picture Writing

The ancient Egyptians used beautiful writing called "hieroglyphics," made up of 24 basic pictures used to spell out words. There were also pictures to show who or what was being written about, and other pictures to describe actions. Altogether, there were more than 700 different pictures and symbols! Egyptians were pretty flexible about their writing—hieroglyphics can be read from left to right (like our language) or from right to left. How do you know which way to read? You look at which way the animal characters are facing. If their noses point to the left, you read from left to right. It's like watching a parade!

Keep track of the hieroglyphics you pass from START to END. Copy each one into the blank space provided. When you're finished, see which pharaoh's name you have spelled.

START

			END

Draw the hieroglyphics from left to right.

Hatshepsut

Tutankhamun

Ramses II

**That's
A-Maze-Ing!**

No one uses hieroglyphics today, but there are plenty of examples left in the tombs and temples. Even ancient grocery lists and pages of math homework have been found!

Ride the Bus

Look carefully at these two buses and see if you can find the hidden pencil, snail, capital letter E, lightning bolt, umbrella, and book.

EXTRA FUN: See if you can find four other things that are different between the bus on the top and the bus on the bottom.

WACKY WORD PLAY

Idiotic Idioms

An idiom is a phrase that cannot be understood from the meanings of the separate words in it. Look at the pictures and see if you can guess the expressions for the following meanings.

1. All at once

2. Try something new

3. To study

4. On top of things

5. Undecided

6. Tell a secret

7. Get some sleep

Funky Fertilizer

These two farmers are having quite a conversation about their cows' stinky manure. To see what they are saying to each other, figure out where each puzzle piece goes in the empty grids. Then, write the letters in their proper places.

Silly Chefs

Can you find nine words that might be used when describing the creations these silly chefs are cooking up? Look for: yum, slurp, delicious, good, tasty, munch, wonderful, sweet, and hot..

Extra Fun: While you are browsing in this kitchen, also look for the hidden knife, fork, oven mitt, cookbook, and measuring cup.

Why did that guy . . .

To find the answer to this riddle, think of a word that best fits each of the descriptions at right. Write the words on the numbered lines, and then transfer each letter into the numbered grid.

Why did that guy bring toilet paper to a birthday party?

IN THE ENCHANTED KINGDOM

The logic puzzles on this page take place in an enchanted kingdom, at a castle inhabited by four princesses—Ruby, Sapphire, Jade, and Topaz—as well as their mother, Queen Diamond, and their four pet dragons.

Taming Dragons

These princesses don't need anyone to rescue them—they are dragon tammers and have four days to tame their four dragons. Every day, each one must work with a different dragon. On the **second day**, Ruby tamed Spitfire and Sapphire tamed Forktail. On the **third day**, Jade tamed Blaze and Topaz tamed Smokey. On the **fourth day**, Sapphire tamed Smokey and Topaz tamed Forktail. **Which dragon did each princess tame on each-day?**

Ruby
Jade

Ruby				
Jade				
Sapphire				
Topaz				

The Marriage Proposal

Prince Pyrite came to the enchanted castle to ask for Princess Ruby's hand in marriage, but Ruby didn't like him. The Queen didn't want to offend Prince Pyrite, who was her guest, so she told him to go to her garden and put one black and one white pebble into his purse. If Ruby picks a **black** pebble, they will marry. If she picks a **white** one, the prince will have to go home alone.

As the prince went out to the garden, Ruby followed him and saw him put two black pebbles into the purse. At first, she's dismayed but then gets an idea. **How can Ruby trick the prince?**

Clean the Fridge!

Know how leftovers get when they have been in the fridge a reeeeeeeally long time? Fit the eighteen words that describe how gross they look (and smell) into the grid, right. Tea Time

The Thompson kids are having a tea party. Can you find at least 20 things that start with the letter "T"? **EXTRA FUN:** Try and find 10 more "T" words!

Crazy Crayons

Crayons were originally made in Europe around the 1700s and were imported into this country at a high price. Nowadays, crayons are made in the United States by mixing a few types of waxes, such as paraffin, beeswax, and carnauba wax. The waxes are melted in a huge pot. Workers then add colored powders to make thousands of different shades. Today you can find so many varieties of crayons—basic colors, neon shades, multicolored crayons, and crayons with glitter inside!

**That's
A-Maze-Ing!**

In 1996, the Binney & Smith Company produced the 100 billionth Crayola™ Crayon!

Start coloring the path with one crayon. Fill in the whole path from side to side. When you come to a dot, switch colors. Do this all the way to the center.

How many different colors do you think it will take to get to the middle of this maze?

Feed Me

I am a plant that eats flesh. I like ants, spiders, and juicy bugs. When an insect lands in my open mouth—SNAP! I slam shut and trap the bug inside where it is slowly digested. Use a dark color to fill in the shapes that have the letters F-E-E-D M-E. The leftover white shapes will show what kind of predatory plant I am.

Awfully Ancient

For more than 3,000 years humanity has been plagued by an infectious disease called "leprosy" which attacks the nerves of the hands, feet, and face. Doctors only found a way to treat it about 50 years ago. However, if left untreated, leprosy can have some awful results!

In each row, cross out the letters that appear more than three times. The remaining letters will spell out the answers.

page 16 • The Marriage Proposal

Ruby can take out one pebble and “accidentally” drop it into the river. Then, she’ll insist that the pebble was white. Since the other pebble in the purse is black, everyone has to assume that she dropped the white pebble—and she won’t have to marry the sneaky prince!
